No. 4—There is a vast difference in taste when it comes to preferences in gladiolus. Some like mostly pastels and white, some the medium pinks and lighter reds, many complain that there are too many yellows and orange shades in the average mixture offered. However a great many customers visiting our plantings to select varieties, want to know if there will be some of the deep colors and smokies in the mixture. For the benefit of those who like the dark colors and smokies we have made up a special mixture with some each of light colors and white, but with plenty of the deep and black reds, purples and smokies. Price—**\$6.00** per 100 large size.

No. 5—For those who like to have a lot of different varieties in their mixture we are offering an assortment containing one bulb each of 50 varieties, large bulbs for **\$3.50**, or two each of 50 varieties for **\$6.00**. Varieties will be of our choice and not labeled.
